Staff meeting.

I talked to Reed Harris regarding IIA affairs.

Mr. English briefed me about Danish shipping and thereafter, with Messrs. English, Ronhovde and Barringer, I saw the Danish Ambassador. I explained as fully as I could the reasons for the note ~~thank~~ we had given him some time ago on this subject, and said ~~MXXX~~ I was personally ready to talk when the time seemed opportune to one or more members of the Congressional Committee to whom it would be referred.

Paul Nitze and I lunched together at the F Street Club.

John Cabot telephoned me this afternoon from Massachusetts to say ~~thank~~ he would go to Pakistan as Ambassador.

Austin Foster, the Socony Vacuum lawyer, came down from New York to see me about the oil cartel suit. He feels ~~thank~~ the importance of this problem warrants the appointment of a presidential commission to consider it.

I talked to Doc about the possible vote by the United States Delegation to the United Nations to inscribe the Union of South Africa item on the agenda. I am [redacted] fearful of the consequences if we vote in favor of a debate upon what seems to me to be essentially a domestic que[redacted]d though the discrimination between races in South Africa is.
